EDUCATION

Dayananda Sagar Academy of Technology and Management

B.E. in Computer Science and Engineering

Aug 2023 – Jun 2027

CGPA: 9.7 (Ongoing)

Narayana Junior College

MPC

Jun 2021 – Jul 2023

Percentage: 96.9%

TECHNICAL SKILLS

Languages: C++, C, JavaScript

Frameworks & Technologies: React.js, Node.js, Express.js, Socket.IO, REST APIs, MySQL, Docker

Developer Tools: Git, Linux, Postman, Visual Studio Code

Relevant Coursework: Data Structures & Algorithms, OOP, DBMS, Operating Systems

PERSONAL PROJECTS

CodeSync – Real-Time Collaborative Cloud IDE 🔗 | *React.js, Node.js, Socket.IO, MySQL*

Jan 2026

- Built a web-based collaborative code editor where multiple users can **edit and run code together in real time**.
- Added **real-time code sharing, live cursor updates, project rooms, and in-room chat** using Socket.IO.
- Implemented code execution for **C++, Python, and JavaScript**, along with REST APIs, MySQL, and user authentication.
- Designed the application with separate frontend and backend services and deployed the system using **Docker and Render** for production use.

LucidChat – AI Document Assistant 🔗 | *Next.js, Node.js, Gemini, Qdrant, Docker*

Oct 2025

- Built an AI document assistant that lets users **upload PDFs and ask questions** about their documents.
- Implemented a **RAG pipeline** using Gemini and Qdrant to retrieve relevant document content and generate **document-grounded answers without hallucinations**.
- Added background PDF processing with **Redis and BullMQ**, along with authentication, file validation, and Docker deployment.

MiniShell – Unix Command-Line Interpreter | *C++, POSIX APIs, Multithreading*

Aug 2025

- Built a Unix shell in C++ supporting command execution, background processes, and input/output redirection.
- Implemented **process management and pipes** using `fork()`, `execvp()`, `waitpid()` and `pipe()`.
- Added a multithreaded job manager and **signal handling** to manage background processes and keyboard interrupts.

CERTIFICATIONS

Programming in Modern C++ – NPTEL, IIT Kharagpur 🔗

Mar 2026

Completed certification covering **modern C++, STL, templates, and object-oriented programming**.

SQL (Intermediate) – HackerRank 🔗

Sep 2026

Passed the HackerRank **SQL (Intermediate)** certification covering queries, joins, subqueries, and data manipulation.

ACCOMPLISHMENTS

Second Place – HackVerse '25 National Hackathon (120+ Teams)

Built **Plutus**, a voice-based AI agent for secure blockchain transactions, finishing second among 120+ teams.

Organizer – ByteBattle 2025 Coding Contest (500+ Participants)

Organized a 6-hour **CodeChef coding contest** with 500+ participants, managing contest setup, coordination, and execution.

First Place – Intra-College Coding Contest

Achieved first place in a competitive programming contest focused on **data structures and algorithms**.
